## **The Hill Country Experience**

Our goal for Hill Country Catering & Events is to recreate the Hill Country Barbecue Market Experience in your home, venue or backyard. In addition to offering our world class barbecue, sides and desserts – served with the warm, gracious hospitality of Texas and the South – we have created a signature aesthetic for your event that brings our Texas barbecue market look and feel to your guests, creating an atmosphere that is unique, memorable and transporting. Our capable team will arrange for exclusive design elements and services, such as farmhouse and picnic tables, wooden chairs, gingham table cloths, mason jars, picnic china, live country, rock and blues music, and butcher block serving counters, in order to bring the flavor of our Texas roadhouse directly to your guests.

Hill Country Catering represents an alternative to stuffy catering halls, stiff event spaces, and fussy white glove service that your guests will find refreshing, disarming and fun.

## **The HC Barbecue Trailer**

We can bring the award-winning Hill Country Experience to your backyard with our signature HC Barbecue Trailer – an eye-popping, mobile barbecue pit we pull right into your driveway. Nothing beats the quality, theatre and “wow-factor” of barbecue smoked and carved right in front of your eyes by the HC team, just like the Hill Country Barbecue Market experience.
